

# TJ-3046

## THE **ULTIMATE** TOUGH CRUSHING SOLUTIONS

The TJ-3046 Track Jaw Crusher is a high-performance primary jaw crusher designed for fast setup and superior control over product size. With an output of up to 445 TPH, the unit is ideal for medium-scale operators in quarrying, demolition, recycling and mining applications.

TJ-3046

ENGINE	350-horsepower CAT® C9 ACERT (Tier3)
PROCESSING CAPACITY	Up to 445 TPH
FEED HOPPER CAPACITY	13 cubic yards
STOCKPILING HEIGHT	11 feet, 6 inches
JAW SIZE	30 inches by 46 inches
WEIGHT	110,250 pounds

## FEATURES

▶ The high-performance, hydraulically driven jaw operates with an aggressive crushing action. A hydraulic wedge adjustment offers more control over sizing and an optional level sensor monitors the feed rate into the jaw to ensure maximum production.

▶ A 13-foot, 1-inch by 44-inch stepped vibrating grizzly feeder, bypass chute and dirt conveyor come standard on the unit. The sides and rear of the heavy-duty hopper hydraulically fold for easy transportation and rapid setup.

▶ The 48-inch-wide crusher discharge conveyor can stockpile up to 11 feet, 6 inches and an optional magnet can be fitted for recycle applications. A heavy-duty crusher impact bed and dust suppression system are standard.

▶ The electronic crusher control system includes a touch screen display and guarantees easy operation of crusher functions and simplified maintenance.
